SDI JV Team Key Features and Benefits

- SDI JV Managing Partner Sabre Systems, Inc. successfully manages a \$150M NAVAIR prime contract similar to PASS technical scope and contract complexity.
- SDI's lean management structure and low pass-throughs incentivize our specialty and small business partners to market and bring work to the vehicle generating innovative, scientific, and technical solutions and services for PASS customers.
- Members of SDI JV have established business relationships and proven experience managing JV prime contracts.
- SDI offers the depth, breadth, and corporate strength of a large global company while simultaneously offering the responsiveness, flexibility, and customer centric solutions of a adaptive mid-tier company.
- SDI JV provides customers with access to the significant resource pool of a large company, but offers an inherently greater potential for innovation and diversity that individual companies often cannot produce.
- SDI's highly acclaimed Collaborative Partner Portal provides transparent, accurate, real time reporting and deliverables allowing customers to make informed decisions in rapid time.
