

SDI Joint Venture Overview

Sabre Systems, Inc., DCS Corporation, and Integration Innovation, Inc. have partnered to create the SDI Joint Venture providing global defense activity solutions to the Department of Defense, the U.S. Coast Guard, and the National Aeronautics and Space Administration.

Sabre

Sabre: Managing Partner of the SDI Joint Venture, Sabre Systems, Inc. (Sabre) provides contractual, financial, and legal management of the contract vehicle. Sabre ensures Team SDI delivers consistent, responsive, high quality services through enforcement of their International Organization for Standardization (ISO) (9001:2008 and 20000-1:2011) and CMMI® Maturity Level 3 (development and software development services) standards.

For more information, visit www.sabresystems.com

DCS: Joint Venture Partner. 900+ engineers and technical specialists; managing similar efforts as a prime-ACCESS (USAF) AMCOM Express (Army) and Common Enterprise Omnibus support service (CEOss) (USMC)); positioned across Army, Navy, USAF, USMC and USCG. For more information, visit www.dccorp.com

i3: Joint Venture Partner. 200+ engineers and technical professionals; managing similar efforts as a prime-FIRES Center of Excellence (Army), International Flight Training (GSA MOBIS) and Research and Development (R&D) program support (AFRL BAAs); significant international and FMS expertise.

SDI JV Team Key Features and Benefits

- SDI JV Managing Partner Sabre Systems, Inc. successfully manages a \$150M NAVAIR prime contract similar to PASS technical scope and contract complexity.
- SDI's lean management structure and low pass-throughs incentivize our specialty and small business partners to market and bring work to the vehicle generating innovative, scientific, and technical solutions and services for PASS customers.
- Members of SDI JV have established business relationships and proven experience managing JV prime contracts.
- SDI offers the depth, breadth, and corporate strength of a large global company while simultaneously offering the responsiveness, flexibility, and customer centric solutions of a adaptive mid-tier company.
- SDI JV provides customers with access to the significant resource pool of a large company, but offers an inherently greater potential for innovation and diversity that individual companies often cannot produce.
- SDI's highly acclaimed Collaborative Partner Portal provides transparent, accurate, real time reporting and deliverables allowing customers to make informed decisions in rapid time.
